

2019 Hardware Specifications

Recommended Configuration ¹

WorkStation

Windows 10 Pro ²
Intel Core i3 3.1 GHZ or faster
8 GB DDR3 Memory
250 GB Hard Drive or larger
1 GB Network Card
Microsoft Word 2016

Server

- The minimum server hardware specifications depend on the number of workstations connected to the server. If you have remote locations accessing the server, contact SACS for recommendations. SACS will evaluate your existing system and recommend a server configuration.
- SQL Server 2017 ³
- Microsoft Word 2016 ⁴

Network

1 GB Switch

Printers

Laser Printer – 16 pages-per-minute, minimum of 16 MB memory

¹ This recommended configuration represents a balance between hardware cost and software responsiveness / speed. Faster computers will generally increase software responsiveness and speed.

² Professional or Business versions of operating systems are recommended for all workstations.

³ SQL Server 2014 Express R2 may be substituted based on your configuration.

⁴ Microsoft Word is required if the server will be used as a workstation or if remote locations log on to the server.

Forms ¹

The following special forms are used by SACS Housing Software

Laser Labels – AVERY Model #5161

Laser Postcards – AVERY Model #5389

Laser Checks – Standard 8.5" X 11.0" dimension, Pre-printed or Blank Forms ²

Laser Bar Codes – QUILL #10145

Laser ID Cards – AVERY Model #74549

Laser Tax Forms

¹ SACS Housing Software by default uses the forms described. SACS Housing Software is highly customizable. Before purchasing special forms, please contact SACS.

² Blank Check Stock requires a laser printer equipped with MICR toner.

If SACS is awarded the contract, SACS will evaluate Hardware off site and make recommendation @ no cost to the Authority.
